

“They wonderful thing about technology is that it is the same everywhere. Everyone has the same needs and they can design any technology they want to meet those needs.”

-Mean Old Mr. Nadal

“I disagree because people in different places have different needs. Geography matters.”

-Mrs. Dowsing

“I disagree with both of you. All people have the same needs, but they meet them in different ways because they have different resources to use in designing technology.”

-Melissa Schweitzer
